

Check To See If Your Watering Day(s) Will Change

The City of Tampa has revised the Water Conservation Code so that all Tampa Water Department customers have the same irrigation schedule. Below are the new irrigation schedules in effect for all Tampa Water Department customers starting March 14, 2010.

Regional water supply conditions are reviewed monthly by the Southwest Florida Water Management District. Changes by the District to irrigation rules will determine if you can irrigate once or twice per week but will NOT change the City's basic irrigation schedules. Please visit www.TampaGov.net/WaterRestrictions or call the Water Restriction Hotline at (813) 274-8032 if you are unsure which watering schedule (once- or twice-per-week) is currently in effect.

Ongoing changes in local and regional water supply conditions result in changes in Water Use Restrictions.

Keep informed of current restrictions by visiting www.TampaGov.net/WaterRestrictions, calling the Water Restriction Hotline at (813) 274-8032, or subscribing to our e-mail newsletter, the Pipeline, at www.TampaGov.net/Water.

Irrigation schedules are now the same for ALL Tampa Water Department customers, inside and outside the City limits.

For specifics about other water use restrictions inside Tampa City limits, including different days and times for low volume irrigation/hand watering, permitted irrigation hours for properties larger than two acres, irrigation allowances for new plant materials, vehicle washing, pressure washing, and aesthetic/recreational uses of water, visit www.TampaGov.net/WaterRestrictions or call (813) 274-8121 during normal weekday business hours.

Water use restrictions in unincorporated Hillsborough County are established and enforced by Hillsborough County. For specific information about the Hillsborough County enforcement process call the county's Water Restriction Information Line at (813) 275-7094 or visit www.HillsboroughCounty.org/Water/Restrictions.
